

HOSPITAL PROJECT IS SUPPORTED

Immediately following his recognition last night by the Hammond city council and deeply encouraged by the action of the council in passing a resolution endorsing his enterprise, Dr. W. L. Siominski, a Chicago physician, announced that papers of incorporation will be filed immediately for the organization of a new hospital here with a capitalization of \$200,000.

While maintaining a Sphinx-like silence to all questions in regard to plans of the hospital corporation, Dr. Siominski, asserted last night that an institution will be founded here and in operation within three weeks.

He said that U. S. army hospital tents will be utilized for the present. A location east of Hammond has been selected, he alleged, and the tents will be up as soon as they arrive. He will bring a corps of nurses from Chicago hospitals. Most of them are able to speak three and four different languages, he stated, and should prove a welcome addition to the medical force of the city.

Later plans call for a permanent structure. Hammond physicians will be affiliated with the new hospital and the institution will be controlled wholly by the physicians.

SAYS HUSBAND ABUSED HER

That her husband cursed and abused her while she was ill in bed and then refused to pay her doctor bills, is charged by Mrs. Emma Holtz, 1124 Madison street, Hammond, in her complaint for a divorce from Henry Holtz which was filed today in the Hammond Superior court. They were married June 27, 1903 and separated May 13, 1920. She says she was forced to support herself and children. Her husband, she says, was addicted to intoxicating liquor. Mrs. Holtz desires to retain the custody of their three children and asks the court to require the husband to provide for their care and education. She also wants \$1,000 alimony. Shearer and White are her attorneys.

NEW DIVORCE SUIT IS FILED

Charges that her husband Henry, beat, struck and failed to provide for her are made in the application for divorce which was filed today in the Hammond Superior court by Hazel Damm. Henry, she says, spent much of his time and money in gambling, to the neglect of his home. They have one child. Mrs. Damm's address is given as 427 Michigan avenue, Hammond. Her attorneys are McAlister, Dorsey and Gillett.

Perel will interest himself in Life Insurance Real Estate and will also maintain law offices at the same address.

BUILDINGS TOTALS TAKE A DROP

May's building totals dropped way below the March and April figures according to the monthly report issued by building commissioner Dougan at this city hall in Gary this morning. March proved itself the banner month of the year, 124 permits for buildings being issued at a total of \$619,395. The next month, April, dropped to \$465,207, while May slumped down to \$335,470. The high cost of building material and the present wage scales in the building crafts are given as the reason for the big slump.

During the past month 81 permits were taken out. Fifty-eight of these were for the erection of new buildings, seven to be remodeled, eight minor alterations and fifteen additions.

GARY POST LARGEST IN STATE LEGION

The Gary post of the American Legion is no more of the largest in Indiana, according to announcement by L. Russell Newgent, state adjutant. This post has reported 337 new members, raising its total to 1,253. The Port Wayne post Friday reported 450 new members, raising its total to nearly 1,100.

BOY'S PRANK COSTLY
A boy's prank yesterday almost caused several accidents in East Chicago when several boys took the bridge off a horse while the owner, Tony Marcus, a fruit dealer, was selling his fruit from the wagon. Then they started the horse running and it was only after a several blocks run that the horse was stopped by L. B. Hepner who jumped on the wagon at the corner of Forsythe and Chicago aves.

FILTRATION DELAYED
The filtration plant of the East Chicago and Indiana Harbor Water Co., which the officials had planned to have in operation by the first of June will not be in use for several days because of the lack of filter sand. The sand has already been shipped and is expected to arrive in Indiana Harbor at any time but because of the poor freight facilities the company can not be certain of the date it will arrive. After the arrival of the sand only a few days will be required to place it and get the plant in operation.
